L'ULTIMA LUNA

2026 NEWS

knikerboker

L'ULTIMA LUNA

è una lampada da parete e da plafone ispirata alle fasi lunari, nasce dall'incontro di superfici curve che si sovrappongono e si inseguono grazie ad uno snodo rotabile, creando un equilibrio delicato tra pieni e vuoti, luce e ombra. La luce si diffonde morbida disegnando aloni cangianti che mutano con la rotazione. Ogni composizione evoca un istante diverso, come l'ultima luna prima del cambiamento. L'Ultima Luna può vivere come elemento singolo o come installazione modulare, dando ritmo e profondità agli spazi residenziali e contract. Una presenza discreta ma memorabile, dove il design diventa atmosfera.

L'ULTIMA LUNA

is a wall and ceiling lamp inspired by the phases of the moon. It is born from the encounter of curved surfaces that overlap and chase one another through a rotating joint, creating a delicate balance between solids and voids, light and shadow. The light diffuses softly, tracing shifting halos that evolve with each rotation. Every composition evokes a different moment — like the last moon before change. L'Ultima Luna can exist as a single element or as a modular installation, bringing rhythm and depth to residential and contract spaces. A discreet yet memorable presence, where design becomes atmosphere.
